

## CryptoParty Lux 4 – enhance your online privacy!

**CryptoParty Lux 4**, the fourth [CryptoParty](#) held in the Grand Duchy, will take place on Thursday, May 16th at 18:00 at Konrad Cafe, Rue du Nord, Luxembourg.

The event aims to gather people from the Greater Region SaarLorLux and will be held in English, French, German and Luxembourgish.

**CryptoParties** are a global movement in the interests of educating and empowering people to protect their privacy in the digital domain.

Privacy is a basic human right. On the Internet however this right is increasingly ignored, especially by many Companies and Governments that track us, log our online activity and even read emails on the way to their destinations.

Also we are subject to malicious attacks on insecure systems. A local example of this kind of problem is **LuxTrust** which needs [Java](#) as a plug-in in your browser and therefore exposes users to the recent [Java vulnerabilities](#). There are also simple and non-obtrusive solutions for that!

The Luxembourg CryptoParties are free and intended for everyone; no prior technical expertise or knowledge is assumed. CryptoParty Lux 4 will be focussed on beginners.

### WHAT HAPPENS?

We'll discuss why Cryptography, anonymity and anti-tracking tools are important today

We'll install online anonymity tools

We'll secure our communications

We'll make sure we can't be easily tracked online

**The details:**

- **When?:** May 16th 2013 18:00 - 21:00
- **Venue:** [Konrad, 7, Rue du Nord, 2229 Luxembourg](#)
