HOBART
CryptoParty

GOVERNMENTS, CORPORATIONS and CRIMINALS are fighting for control over the Internet.

This free community event will help you learn how to use the Internet in a way which respects your privacy and keeps you in control of your personal information.

Bring a laptop if you have one, some snacks and a sense of curiosity as we learn how to keep our information private and defend against those who would monitor and steal it.

Talks on:
- Why privacy? What you have to hide
- Safe emailing with encryption and trust networks
- Safe web browsing with TOR software
- Tutorials, setup demos, discussions, questions and answers.

22nd November 2012

Australian Computer Society building
69 Liverpool St, Hobart 7000

6:00pm for a 6:30pm start
